Tours and Italian lifestyle experience

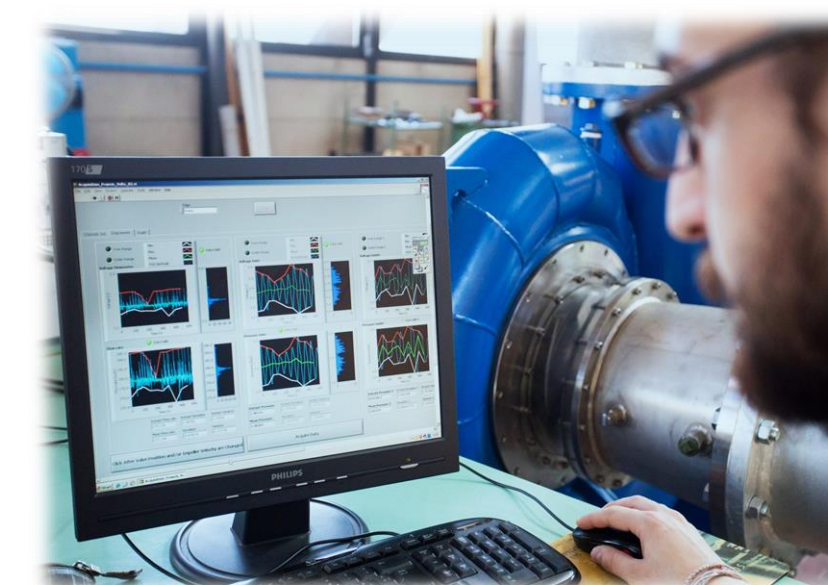

Beyond the Congress: Where Theory Meets Practice

As part of INTER-NOISE 2027, the School of Mechanical Engineering of the University of Padova are offering a limited number of places for two practical courses on industrial noise control and sound design.

The Special Short Courses will run from Thursday 26 to Friday 27 August 2027, immediately after the congress, for a selected audience of researchers, doctoral students and young professionals.

Certification of training activity for eligible PhD students.

Call for Action: We Need You!

Are you a student or a young professional actively working in the field of acoustics and want to experience the INTER-NOISE 2027 Congress firsthand?

Email us at info@internoise2027.org; we're looking for volunteers to train and join our staff. We have plenty of opportunities and benefits for you!

Stay Tuned: internoise2027.org

See you in Padova, from August 22nd to 25th 2027, for the 56th Inter-Noise Congress!
